LOCAL NEWS.

Pay your road tax!

Cattle are selling in Yavapai county for \$25 per head.

Tony Long of Springerville, was in the city on Wednesday.

C. E. Cooley, of Show Low made this city a brief visit last week.

Counselor Harris Baldwin left on Tuesdays coach for Navajo and Holbrook.

M. N. Chaffin, foreman of Garland's cattle ranch was in town the first of the week.

Judge E. C. Bunch and family, of Springerville, arrived in this city on Monday.

Edward McCammon has been commissioned a notary public for Apache County, to reside at Winslow.

P. J. Hill of Houcks' Tanks has purchased of our townsman, Sol. Barth, fifty head of cows at \$30 per head.

Henry Reed, editor of the St. Johns Herald, left on Saturday last for a short visit to Albuquerque and Santa Fe.

Messrs. Ruiz & Darling have been busy the past week building a wire fence around their farm about two miles from town.

Mr. William Garland, of railroad fame, who owns a large cattle ranch fifteen miles north of us was in the city on Tuesday.

Mr. W. B. Leonard, one of the county fathers, spent Sunday in the city a guest of Walter Darling, Esq. He left on Monday for his ranch at Tanner Springs.

This sheet cannot be muzzled, bridled, saddled, cinched or tied by any party, faction or clique so give "her" plenty of territory upon which to stroll.

Dionicio Baca, Treasurer of Apache county, came in from Springerville, Tuesday night. Mr. Baca is one of the most energetic and efficient officers in the county.

The company of colored troops now stationed at Fort Whipple, are part of the 10th cavalry, and have a reputation of being one of the best drilled companies in the United States Service.

We are told by a prominent Mormon that Miles P. Romney, the ascending editor of the Orion Era, will shortly return to this city, and will be in Prescott at the next term of court to stand trial on the several indictments found against him.

George E. Kentner, he who packs the tripod and the transit, arrived in the city on Monday from Phoenix Park. Mr. Kentner is a witness in the case of the Territory vs. Fritz Jeffre, and will remain with us until after that trial which takes place the 25th inst.

Mr. Dick Bailey, of the firm of Arnold & Bailey, arrived in this city last week after an absence of six months, during which time he has been in Mexico purchasing cattle to place on his range near Taylor in this county. Mr. Bailey left for his ranch on Monday.

Mr. W. W. Wall, the contractor on the mail route from Springerville to Navajo, has circulated a petition praying the Postoffice Department for an increase and expedition of service on this route. The mail is now being carried six times a week on this line, and the running time between the termini of the road is twenty-two hours. If the petition is granted it will add one more trip and shorten the time to about five miles per hour, which consideration the people of this section are entitled to. Mr. Wall is one of the pioneer mail contractors of the west and understands how to run a mail route with certainty, celerity and security, and he only awaits the orders of the Department to "pound 'em on the back."

A Modern Miracle.—Some one has said: "There is nothing that exists in the universe but what can be used in some way for the benefit of man and the advancement of civilization." A prominent citizen of this place entered the Co-op. store on Monday last, and after testing some half dozen rolls of butter signified his willingness to take one particularly choice roll. The accommodating clerk having no wrapping paper at hand utilized a newspaper lying close by, and after carefully rolling it up he handed it to the citizen who lit out for home with slightly accelerated speed as visions of hot rolls and fresh creamery butter floated temptingly before his eyes. Upon reaching home and after calling his wife's attention to the superior article of butter purchased, he unwrapped the package and there rolled out before their astonished gaze a three pound bar of mottled soap. Not believing in the evidence of their own eyesight they immediately called in several of their neighbors who confirmed their correctness of vision. After carefully discussing the phenomenon and finding no cause for this modern miracle they were about to disperse when one of their number casually glanced at the heading of the paper in which the butter came, and solved the problem to the satisfaction of all. The paper was a copy of the Orion Era, and the action of the large amount of concentrated lie, used in the publication of that paper, upon the three pounds of fatty substance had converted the butter into a superior article of soap.

The Aztec Land and Cattle Company, who own over one million acres of land in the vicinity of Holbrook, in this county, have purchased 35,000 head of stock cattle with which to stock their ranges. The cattle are being driven to Albuquerque from which point they will be shipped in cars to their destination. The land of this company is said to be the best in Arizona, and the cattle they have purchased are all of a high grade.

There seems to be a general wish among the citizens of the county that Mr. Frank A. Hubbell be appointed by Governor Trible to fill the vacancy now existing in the Board of Wagon Road Commissioners. Mr. Hubbell is a gentleman of integrity and ability and enjoys the confidence of every one, which fact is sufficient proof that the money allotted this Board will be judiciously expended. We hope that the Governor will make the desired appointment.

TERRITORIAL ITEMS.

[Prescott Miner.]

Fully 2000 Mormons settled in Arizona last year.

City warrants are quoted at present at seventy-five cents on the dollar, with few purchasers.

Sheriff Mulvennon has appointed J. M. Francis, of Flagstaff, a deputy sheriff and tax assessor for that section of the county.

Secretary Hazeltine of the Yavapai Stock Grower's Association, has entered into a correspondence with the stock associations of Apache county with a view to agreeing on suitable persons for the appointment of cattle inspectors.

That the last legislature still lingers in the memory of the tax payers of the Territory has been exemplified by the filing for record with the County Recorder of the location notice of the "Thieving Thirteenth"—a claim in the Hassayampa district.

Ripe apricots were shipped by express from Phoenix to San Francisco last week.

Captain John G. Bourke, Inspector-General of the Military department of Arizona, has been relieved at his own request, and will re-join his regiment—the Third Cavalry—in Texas.

The Cattlemen of Maricopa county will meet in Phoenix on June 1st, to organize a Stockmen's Association.

[Prescott Courier.]

We feel safe in predicting that this will be a prosperous year in Arizona.

It is more than likely that upwards of \$120,000 will soon be paid to two citizens of this county, for ranches, cattle and horses.

Good land for small farms and big gardens, is, as yet, plenty in this part of Arizona. Yampai valley, Big Chino, Lonsome and many other valleys, where water can be brought to the surface, will, sooner or latter, be attended to.

[Tucson Weekly Citizen.]

Some Democrats will find the temperature about 212 in the shade when President Cleveland announces the name of Arizona's next Governor.

Cows and copper; beef and bullion; gold and geldings, and shorthorns and silver are the alliterative resources of Southern Arizona.

The territorial newspapers are about a unit in favor of the appointment of Thos. Gates, of Tucson, as U. S. Marshal for Arizona, when a change is to be made. We believe the Gates are ajar to the soft impeachment.

It is said that the Wallapai Indians have never been known to steal horses, mules or cattle. Now if some learned anthropologist can devise a method of inoculating a little Wallapai honesty into the pale-faced civilization, he could

live on sugar-coated fame for the balance of his earthly days.

Chow Chow, an aged Chinaman, has been suspected for a long time of selling whisky to Indians, and about ten days ago was fined thirty dollars by the county authorities. To-day the deputy U. S. Marshal went to arrest him for the same offense, but the old man escaped from his cabin on the banks of the Colorado and threw himself into the river. The body has not been recovered.

[Phoenix Herald.]

Three-fourths of the applications for federal positions in Arizona, are from non-residents of the territory.

Bishop Bougarde, the new Catholic Bishop of Arizona, was formerly parish priest at Yuma.

Arizona has more newspapers in proportion to her population than any other state or territory in the Union.

For capitalists looking toward Arizona, there is no safer or more profitable investment than the building of canals and the reclamation of the fertile lands along her principal streams. Once water is brought upon those dry valleys, settlers will seek homes and every foot of available land will be occupied, thus bringing to the canal company an unflinching income each year.

COMMUNICATED.

St. Johns, A. T., May 18, 1885.

EDITOR HERALD:—At this age of ecumenical, when procrastination is lost in oblivion, and the finite knowledge of man is trying to raise to that of infinite, that he may know more of the metaphysical science and value the mysteries of infinite space, we are led to say and believe that man is yet in his infancy in metaphysical science. But science is something that few know anything about, or even understand the nature of it. Hence, when we hear of anyone speaking in favor of it, we are apt to say that it is all bosh. But if we could comprehend the nature of it, and see the benefit that is to be derived from the study of metaphysical science, we would not be so ready to condemn that which has done more for this country than all other religion. However, as I am nothing of a scientist I will not say anything about it and bore the reader with something that I know nothing about; however, I can say this much, that my opinion coincides with that of Herbert Spencer, he says: "But, amid the mysteries which becomes the more mysterious the more they are thought about there will remain an absolute certainty that he is in the presence of an infinite and eternal energy, from which all things proceed." But Herbert Spencer is an Agnostic and but a few care to read his writings, yet they must acknowledge that he is a good writer and a great thinker. Ingersoll says that God must be an infinite being, therefore, eternal. But if he is finite in one thing he must be finite in all things; therefore he is not eternal. Now if we are to judge from those two illustrious bodies, we must take it for granted that religion is

in a state of retrogression and will soon be lost in oblivion, and science will ever be the future religion; and the men who hold to it will forever rest before the throne of the great incomprehensible one, and the residue will go I know not where.

Large quantities of fish are pulled daily from the limpid waters of the Little Colorado.

F. T. Lewis will receive a large supply of fresh candies and cigars tomorrow. Give him a call.

A great many substantial improvements are being made upon dwelling houses in different parts of the city.

The wife of Mr. Thomas A. Brown, agent for the railroad company at Winslow, died suddenly in that city last Sunday.
